Con-Tech's new A.R. steel head offers several advantages:

- **More Wear Resistant**: Up to 300% more wear resistant than typical Gr. 50 spun heads.
- **More Usable Steel**: 1/4" and 5/16" heads are true nominal thickness unlike spun heads that get thin on the radius.
- **Lighter**: 1/4" heads are 172 lbs. lighter than 1/4" spun heads.

The Solid Roller Track is lighter and stronger than hollow designs, providing 350% more contact surface area and eliminates flexing and cracking.

Con-Tech's patent pending EcoFin technology allows concrete to flow through the mixing fins then folded into the mix coming over the top of the fin. This provides a much more homogenized mix in a much more efficient manner than conventional designs. Mixing holes allow concrete to pass through the fin along the drum skin providing a barrier from the mixing chamber. Reducing the wear on your mixing fins and drum skin.

**Ball Buster** paddle system is strategically located for breaking apart floating dry balls.

**New Fin Spiral**
The new self-cleaning fin design allows for small amounts of material to pass through the fins which drastically reduces build up. Elevated surge fins allow water to flush underneath to reach the main fin row during clean up.

**Straight Cone Taper**
Allows for a smooth discharge with virtually no surging, while allowing maximum discharge performance.

**High Capacity**
Head and belly sections allow for 25% more material in the mixing bowl.

**It’s What’s on the Inside that Counts!**

Con-Tech’s patent pending A.R. Steel 'lip doubler' provides ultimate wear protection.

**VS. OTHER BRANDS**
Ball Buster paddle system is strategically located for breaking apart floating dry balls.

**UPGRADE TO HIGH PERFORMANCE!**

The Mixer that
Does it All!

Often Imitated. Never Duplicated.

The Con-Tech High Performance Drum
is designed from head-to-tail to meet and exceed
the demands of producers everywhere.
From extreme paving down to filling wheel barrows,
the HP Drum is the Ultimate Solution!
Once again, you asked and Con-Tech listened!
